

SYNERGY 10 READER

Time and Attendance data capture device with a 10" touch screen display and a host of reader technology options

Synergy 10 Reader provides a highly secure and robust method of performing a wide range of Time & Attendance and employee self-service functionality from clocking in and out and registering breaks, to requesting holiday, and checking balances.

Synergy 10 Reader is equipped with a high resolution 10" touch screen and features a choice of card/fob reader technologies, including Mifare, Proximity, HID, and HID iCLASS.

Large 10" Touch screen with instantaneous response

Designed for busy organisations, employee credentials are quickly authenticated and clear icons make it easy to select the desired option, such as clock in or clock out.

If network connectivity is lost at any time, the device will continue to operate as normal in 'offline mode' and upload its data to the cloud once connection is restored.

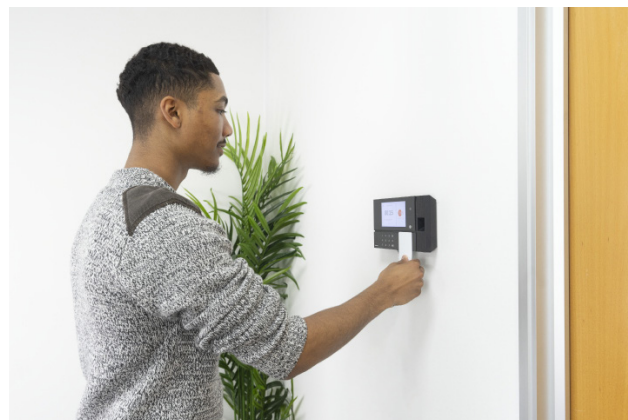

Quick and easy enrolment

Synergy 10 Reader is able to store the credentials of large numbers of employees, making it suitable for even the largest of workforces.

Employees can be enrolled at any Synergy 10 Reader installed across your solution, or via an optional enroller connected to a PC.

Supports a wide range of card and fob technologies

Synergy 10 Reader supports a wide range of card and fob technologies, including Mifare, Proximity, HID and HID iCLASS, as well as PIN entry via the device's touch screen. You can also add an additional layer of security by combining authentication methods.

The perfect hardware solution for Synel's workforce management software platform

Workforce Management Solutions

SYNERGY TIME & ATTENDANCE

Flexible and highly customisable T&A and HR solution to satisfy even the most complex work-rules and work-flow requirements.

SYNERGY PROJECTS

Measure efficiency and analyse time spent on, and cost to complete, specific tasks or activities.

SYNERGY DOCUMENTS

Store documents safely and securely in the cloud and attach to specific employee records.

Synergy 10 Reader is seamlessly integrated with 'Synergy Workforce', Synel's own leading cloud-based workforce management software platform.

Users of the 'Synergy Projects' module in particular benefit from the large touch-screen display, which makes it easy to input activity codes, and the front facing camera that can be used to scan activity barcodes. A separate USB barcode reader can also be connected to the device.

INTEGRATIONS

Synergy T&A seamlessly integrates with leading third-party providers to deliver accurate time & attendance information for HR and Payroll systems.

ADD FIELD MANAGEMENT

Brings time costing and activity tracking to workers operating in the field with geo-location capability

Compatible with third-party software platforms

Synergy 10 Reader is also compatible with a host of third-party workforce management platforms.
